 Individual Placement Description**

Placement	Foundation Year 1 in Care of the Elderly King George Hospital
The department	<p>The Care of the Elderly department provides general medical care to all elderly patients that are admitted to Queen’s and King George Hospitals.</p> <p>Comprehensive geriatric assessment and care is provided by a team of consultants supported by a team of dedicated and experienced specialist nurses, therapists with input from borough based social care practitioners.</p> <p>During a patient's stay, there is great emphasis on prompt diagnosis and multidisciplinary rehabilitation. Maintaining dignity and individual privacy is extremely important and experienced therapy staff work closely with the medical staff to achieve this.</p> <p>At King George Hospital, we have an Acute Elderly Unit, Fern Ward and two wards - Elm and Erica - that provide acute post-operative orthogeriatric rehabilitation.</p> <p>We provide specialist outpatient clinics for falls, confusion, dementia & delirium, memory, orthogeriatric and general medical clinics for the complex elderly with more than one illness and who therefore do not fit neatly into any particular category. Our memory service liaises closely with voluntary agencies such as Age UK.</p>
The type of work to expect and learning opportunities	<p>Mainly Based on Gentian and Fern Ward at King George hospital seeing the patients from the medical take. The work will include seeing new admissions, completing ward rounds and completing the jobs created by that ward round.</p> <p>Teaching and Learning FY1s have ten half day protected teaching sessions scheduled across the year. This teaching is mapped to your curriculum. Attendance at these sessions is mandatory. FY1s also have an allocated mandatory Simulation Training Session.</p> <p>Local departmental teaching will take place and you are also expected to attend the Grand Round teaching every Monday at 1pm in the James Fawcett Education Centre at KGH.</p>

	<p>F1's are also expected to undertake a Quality Improvement Project (QIP) during your time on Care of the Elderly. This will be supervised by your Consultant and the registrar.</p> <p>If you have a specific project in mind you can discuss this with your Consultant.</p> <p>There are also opportunities to teach undergraduates.</p>
Where the placement is based	Care of the Elderly, Fern and Gentian Wards, King George Hospital
Clinical Supervisor(s) for the placement	Dr Farooq
Main duties of the placement	<p>Day-to-day Working Covering Fern or Gentian Ward. Working hours are from 9am to 5pm.</p> <p>Your jobs initially start with the ward round and seeing the post-take Care of the Elderly patients, it is your responsibility to complete the jobs: i.e. referrals, scans, medications, fluids, bloods etc.</p> <p>On-Calls Start at 8.45am with handover in the MAU handover room, finish with handover with the night team at 8.45pm.</p> <p>During weekdays, FY1s on call will remain on their ward until 5pm. Then they should cover the wards and check eHandover (the electronic handover system) for any jobs and should also help on the take.</p> <p>On weekends, FY1s will be covering the wards, doing the jobs on eHandover and supporting the medical take.</p>
Typical working pattern in this placement	1B Banding 1 in 4 Weekends One long day FY1s do not do nights
Employer information	King George Hospital Barley Lane Goodmayes Essex IG3 8YB Tel. 020 8983 8000

 Individual Placement Description**

Placement	Foundation Year 1 in Stroke Medicine Queen's Hospital
The department	<p>As one of the eight designated stroke units in London, our patients benefit from specialist stroke care and treatment in the immediate period after a stroke, while King George Hospital provides rehabilitation services. To offer patients the best chance of a good outcome, it is important patients are seen promptly in a hyper-acute stroke unit.</p> <p>Our Hyper-Acute Stroke Unit (HASU) provides a world class service to the people in London. We are busy and rapidly growing and pride ourselves in delivering the benefits of latest technology to our stroke patients. Our highly skilled multi-disciplinary team provides round the clock service to our patients to high standards.</p> <p>Whilst recognised forms of treatment are delivered, we actively seek to improve our results and participate in multicentre trials and research.</p> <p>Our Acute Stroke Unit (ASU) is a 30 bedded unit which caters to the needs of stroke patients in next step of their pathway.</p> <p>With approximately 1600 inpatients seen each year and a further 500 stroke outpatients, we are one of the busiest stroke units in the London. We expect our numbers to continue to rise year after year and pride ourselves on our reputation of providing a valuable and best care for our patients.</p> <p>Stroke specialists, neurologists, neurosurgeons and neuro-radiologists along with vascular surgeons provide seamless high quality care. Our therapists are unique in their experienced approach towards stroke patients and use well balanced care whilst striving to provide evidence based treatment.</p> <p>Neuropsychology assessments along with inpatient rehabilitation and specialist services such as speech and language therapy (SALT) and dieticians are available within our department.</p>

	<p>We work closely with cardiologists and gastroenterologists to help us with specialist investigations and interventional procedures that are required for our patients.</p> <p>A weekly Carotid Intervention Group (CIG) meeting identifies all patients eligible for vascular intervention procedures. As a regional neurosurgical centre, we attract patients from across the east of England for specialist interventions.</p> <p>We are also supported by a highly experienced team of neurologists who share their expertise in dealing with stroke patients.</p>
<p>The type of work to expect and learning opportunities</p>	<p>Mainly Based on Sahara A ward at Queen’s hospital seeing the patients from the medical take. The work will include seeing new admissions, completing ward rounds and completing the jobs created by that ward round.</p> <p>Post-holders are encouraged to attend outpatient clinics,</p> <p>Teaching and Learning FY1s have ten half day protected teaching sessions scheduled across the year. This teaching is mapped to your curriculum. Attendance at these sessions is mandatory. FY1s also have an allocated mandatory Simulation Training Session.</p> <p>Local departmental teaching will take place and you are also expected to attend the Grand Round teaching every Friday.</p> <p>FY1s are also expected to undertake a Quality Improvement Project (QIP) during your time on Diabetes and Endocrine. This will be supervised by your Consultant and the registrar.</p> <p>If you have a specific project in mind you can discuss this with your Consultant.</p> <p>There are also opportunities to teach undergraduates.</p>
