North East Thames Foundation School Individual Placement Description

Placement	F2 Stroke Unit
The department	An acute stroke department taking patients who have recently had a stroke but are outside of the hyper-acute phase. There are 3 consultants, of whom 2 are part time. There is one registrar on the ward and 2 SHOs. The main objectives of the unit are to arrange all the stroke investigations and interventions and to rehabilitate patients after their strokes. There are a large number of physiotherapists, occupational therapists, speech and language therapists, dieticians and other therapists with whom the medical team work closely.
The type of work to expect and learning opportunities	The job involves seeing the patients daily on your own or with the registrar. Once a week there is a consultant ward round and once a week there is an in depth MDT meeting to discuss progress. There is good opportunity to work with and learn from the different therapists. The patients are mostly stroke patients but many have multiple comorbidities so you will see a range of different illnesses/ problems.
Where the placement is based	Graham stroke unit, Homerton
Clinical Supervisor(s) for the placement	Dr Talelli, Dr Saastamoinen
Main duties of the placement	See the patients (alone or as described above) and arrange tests and any procedures/ interventions. Ensure documentation on ward rounds etc. Do bloods, cannulas, discharge summaries.
Typical working pattern in this placement	9-5 in theory but if it's a busy day or if you are covering colleagues (as happens often due to acute blocks/ annual leave etc) you can stay much, much later than this. Then you do an acute medicine block within the rotation which is a typical oncall rota with lots of long days and nights.
Employer information	The employer for this post is Homerton University Hospital NHS Foundation Trust.
