<p>Employer information</p>	<p>The employer for this post is NEWHAM UNIVERSITY HOSPITAL NHS TRUST</p> <p>The post will be based in Newham General Hospital, London E13, which is a medium sized acute NHS Foundation Trust and provides an extensive range of secondary services for the growing local community of approximately 280,000. About 25% of the population is over 65 and under 16 years</p>								

It is important to note that this description is a typical example of your placement and may be subject to change.

Appendix K – Glossary of terms

Placement

A structured and supervised training opportunity within a community or hospital setting, lasting no less than four months and no more than six months.

Rotation

A combination of placements configured to deliver one year training at F1 or F2. One year stand-alone rotations are offered by some schools. As an organisational unit, a programme is made up of two rotations”. Some schools may refer to ‘rotations’ as ‘tracks’.

Foundation Programme:

A two year programme for an individual trainee/doctor made up of F1 and F2 rotations.

Some schools offer a full two year integrated programme and others which allocate to F1 and F2 as two separate processes.

FOUNDATION YEAR 2 PSYCHIATRY TRAINING POST JOB DESCRIPTION	
1) INTRODUCTION	
1.1 Grade of Post	Foundation Year 2
1.2 Specialty/Sub-Specialty	Psychiatry/ Liaison Psychiatry
1.3 Type of Contract/WTE	Substantive 1.0 WTE
1.4 Duration of Post	4 months
1.5 Trainer Name	Dr Nick Walsh
1.6 Base/Address	Department of Psychological Medicine, Newham University Hospital, Glen Road, Plaistow, London, E13 8SL
1.7 Service Line	Adult Mental Health
2) DESCRIPTION OF THE POST and TRAINING OPPORTUNITIES	
2.1 Qualifications and Experience of the Trainer	<p>Dr Nick Walsh BSc (Hons) MBChB MRCPsych</p> <p>I have been a Consultant Psychiatrist in Liaison Psychiatry since August 2014 and have worked in Psychiatry since 2008.</p> <p>I am involved in education locally - on the MRCPsych course, the East London AMHP training course and I also involved in developing and facilitating psychiatric simulation courses in with Barts Health.</p> <p>I am a member of the MRCPsych CASC panel, which involves writing and reviewing questions for the MRCPsych clinical examination as well as close involvement in the development of the examination itself.</p> <p>I supervise and teach medical students attached to the service, and provide regular teaching and supervision to core trainees and GPVTS doctors on the Newham psychiatry rotation.</p>
2.2 Description of the Clinical Service	<p>The Department of Psychological Medicine/RAID service provides mental health care for patients attending the Emergency Department or Urgent Care Centre at NUH as well as inpatients at NUH. The service sees all patients over the age of 16 who present with a suspected or known mental health or substance misuse problem. The Emergency Department team is available 24/7 and deals predominantly with psychiatric emergencies. The service also provides outpatient clinics for medically unexplained symptoms, ED call-back clinics and in the HIV service. We provide immediate assessment and treatment and refer patients on to an appropriate community team. We</p>

	<p>provide teaching to the acute hospital staff and to the Newham Centre for Mental Health on the assessment and management of co-existing mental and physical health problems.</p> <p>The Emergency Department has a dedicated consultant psychiatrist, Dr Walsh. Within working hours, there is always a consultant psychiatrist or higher trainee available to attend the Emergency Department.</p>
<p>2.2 Description of Clinical/Medical Team</p>	<p>The medical team consists of 2.8 WTE Consultant psychiatrists:</p> <p>Dr Nick Walsh (1.0 WTE) Dr Simon Kirwin (0.9 WTE) Dr Tom Smith (0.4 WTE) Dr Mina Bobdey (0.5 WTE)</p> <p>There is a full-time higher trainee and a full-time FY1 within the service. The team also includes a part-time social worker in dementia care, as well as a large team of psychiatric liaison nurses who work across the hospital, as well as an operational manager.</p> <p>There are 2 PLNS on duty in ED at any one time, as well as a core trainee on-call for ED who is based at the Newham Centre for Mental Health.</p>
<p>2.3 Training Opportunities</p>	<p>The trainee will be encouraged to undertake programmed Supervised Learning Activities (SLEs) and Work Place Based Activities in accordance with the Foundation Curriculum.</p> <p>The ED liaison team is a very busy service, seeing in excess of 250 patients per month, on average. The trainee will gain experience in assessing psychiatric emergencies such as deliberate self-harm, suicide attempts, acute psychosis and mania, depression and anxiety, puerperal illness, addictions, personality disorder, eating disorders and organic disorders such as delirium, presenting across the lifespan. While the service mainly deals with emergency presentations, there is a strong emphasis on the management of long-term conditions and community care.</p> <p>Patients are considered using a biopsychosocial approach, and problems formulated in terms of predisposing, precipitating and perpetuating factors, which enables trainees to consider patients in an integrated, holistic manner.</p>

	<p>At its core, liaison psychiatry involves working across disciplines and healthcare organisations, using a patient-centred approach, with an emphasis on integrating information from a variety of sources, and with a particular focus on family and carer involvement.</p> <p>The trainee will be able to observe mental health assessments and liaison working and eventually undertake their own assessments, closely supervised by nursing staff and senior psychiatrists.</p> <p>The trainee will be able to observe the use of the Mental Health Act and the application of the Mental Capacity Act and DOLS.</p> <p>The trainee will have the opportunity to spend some time in related services such as triage ward or home treatment team, or a specialist service which may be of interest to them, as appropriate. The trainee will also spend time within other parts of the RAID service.</p> <p>The work that the FY trainee undertakes will be structured, with well-defined guidelines and learning objectives so that the work is appropriate for a doctor at this level of training.</p>
2.5 Additional comments	<p>Skills and knowledge gained are readily transferable to other psychiatric specialities, to general practice and also all medical settings where people with mental health problems frequently present with physical problems.</p> <p>There will also be opportunities to undertake some training run by the Trust in Child and Adult Protection issues.</p> <p>The trainee will also be offered information and advice about careers in psychiatry.</p>
3) CLINICAL SUPERVISION	
3.1 Clinical Supervision arrangements	<p>Trainee will receive structured close clinical supervision at all times by members of the team, led by the Consultant trainer. A Trainer or named deputy will be available for advice at all times, and one hour a week will be allocated with a consultant for a supervision session. All cases the trainee sees in the service will be discussed with a consultant psychiatrist</p>

	or higher trainee.
3.2 One to One Trainer Educational Supervision Arrangements	Weekly supervision will include educational supervision.
3.3 Trainer cover arrangements	A consultant psychiatrist from with the RAID or perinatal teams will be available if the consultant trainer is absent.
3.4 Additional comments	This post offers a broad range of experience in psychiatry, with a particular emphasis on emergency work and the integration of physical and mental health.
4) INDUCTION – describe the arrangements including any out of service leave required	
4.3 Team/Departmental Induction	Trainee will be inducted to the team/department following standard local induction for all trainees. They will shadow other members of the medical team during their first two weeks of placement.
4.4 Additional comments	Out of service leave will be provided for any mandatory training required at induction such as the Acute site induction
5) SPECIFIC CURRICULA PRIORITIES – describe how these are met in the post	
5.1 Community Orientation	Although based in the acute hospital, there are strong links with community services, including Home Treatment Team, Acute Day Hospital and Community Health Teams. The trainee will become familiar with the structure and function of community mental health services. Close liaison with GPs, acute hospital teams and other community services is an essential skill in liaison psychiatry.
5.2 Long Term Conditions	There is a strong emphasis on the management of long-term conditions in terms of both physical and mental health. The trainee will learn how to formulate patient problems using a biopsychosocial approach, which can be applied to both physical and mental health.
5.3 Holistic Care	The team uses a biopsychosocial approach and closely involves families and carers in decision-making and care planning, enabling the trainee to develop skills beyond the medical model which they are already familiar with.
5.4 Inter-professional and integrated Working	Liaison psychiatry is a multidisciplinary specialty, and the trainee will undertake joint assessments with the liaison nursing staff. The team is integrated within the acute hospital, with strong links to community mental and physical health services, as well as psychiatric inpatient services and primary care.
5.5 Additional Comments	

6) LOCAL ACADEMIC SUPPORT	
6.1 Local academic programme	<p>Trainee will attend the weekly academic program based on site the The Newham Centre for Mental Health, and the monthly Psychiatry academic program based at Barts.</p> <p>They would also attend Foundation Year teaching at the acute site.</p>
6.2 Local Knowledge eg Library Resources	<p>Small Library available at the Academic Unit based at the Newham Centre For Mental Health.</p> <p>Access to Library at Newham University Hospital.</p>
6.3 Additional comments	<p>There are opportunities to be involved in quality improvement work and teaching medical students on placement.</p>

**NETFS - Foundation School
Individual Placement Description
Newham University Hospital
Foundation Year 2**

Placement	F2 Cardiology
The department	<p>Newham University Hospital serves a local population of about 330,000. There are high local rates of cardiovascular morbidity and mortality. The secondary care cardiology services for the local population are provided by NUH. The cardiology department is located adjacent to the fully equipped acute care unit (ACU). It provides comprehensive non-invasive diagnostic facilities, including ECGs, treadmill stress testing, Holter monitoring, tilt testing, transthoracic and transoesophageal echocardiography, and pacemaker follow-up services.</p> <p>Cardiology in-patients are looked after on the 16-bedded ACU. A 12-bedded step-down unit is located immediately adjacent to the ACU. There is a daily chest pain clinic as well as outpatient clinics on most days.</p> <p>The Department of Cardiology is staffed by five Consultants, Dr Archbold, Dr Ranjadayalan, Dr Sekhri, Professor Timmis, and Dr Weerackody. Most posts are shared with Barts Heart Centre, which provides tertiary level care for Newham patients including cardiac MRI and CT, angiography and PCI, cardiac surgery, cardiac rhythm management devices, and ablation.</p> <p>Dr Archbold, Dr Sekhri and Dr Weerackody undertake the in-patient ward rounds. Dr Dhinoja undertakes an Electrophysiology (EP) clinic and ward round on Friday afternoons.</p>
Duration	This post rotates with two other specialty posts at NUH 3 x 4 month posts
The type of work to expect and learning opportunities	This is a ward-based post in cardiology at a district general hospital. The main expectation is to deliver the daily medical care of the cardiology in-patients on the Coronary Care Unit. The Cardiology F2 is involved in the clerking of patients admitted to the ward and in the ongoing care of the patients in the unit.

	<p>The main educational objectives for the F2 year are to be able to:</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers. <p>This post provides the educational opportunities necessary to meet these learning objectives, either through clinical exposure/experience, ad-hoc and formal teaching.</p>
<p>Where the placement is based</p>	<p>Newham University Hospital; Coronary Care Unit/Acute Care Unit</p>
<p>Clinical Supervisor(s) for the placement</p>	<p>Dr Andrew Archbold</p>
<p>Main duties of the placement</p>	<p>The main responsibility of this post is the provision of the day-to-day care for cardiology in-patients on the Coronary Care Unit. This is undertaken with three F1 doctors and under the supervision of one CMT, cardiology registrars, and cardiology consultants. An important part of this job is to maintain the medical records.</p>
<p>Typical working pattern in this placement</p>	<p>Daily: 0900 Ward round 1500 – 1600 Ward round 1200/1700/2100 Handover</p> <p>Mon: 1230 – 1330 Grand round 1100 – 1700 Assessment unit.</p> <p>Tues: 0900 – 1200 Ward Round 1400 – 1700 MDT Meeting</p> <p>Wed: 1400 F1 teaching</p> <p>Fri: 0800 – 0900 Departmental meeting</p> <p>Ward cover</p>

	<p>Sat: 0900 – 2100 1 in 5/6 Sun: 0900 – 2100 1 in 5/6</p> <p>On call requirements: On call commitments for General Medicine 1 in 6 with flexible twilight shifts.</p>
Employer information	<p>The employer for this post is Barts Health NHS Trust. The post is based in Newham University Hospital, Glen Road, London E13 8RU. This is a medium sized district general hospital which provides an extensive range of secondary services for local population of approximately 330,000.</p>

It is important to note that this description is a typical example of your placement and may be subject to change.

8 Specialist Registrars
3 Specialist Doctors (on the middle grade rota)
5 Trust Clinical Fellows
8 Senior House Officers
2 FY2
3 FY1
1 Associate Specialist
2 Staff Grade Doctor
1 Trust Grade SHO

DUTIES

Ten SHO's start at the beginning of February and August each year including three SHO's from the GPVTS Scheme, two from FY2 rotation and three from regional rotation. There are two Trust Senior House Officers. An induction day is held at the

start of each post. There is a full shift rota, the post is mixed gynaecology and obstetrics; and only one SHO is on duty at night covering both disciplines. As far as possible only one SHO will be allowed away at any one time excepting for sickness or compassionate leave, or study leave. The weekly job timetables that are circulated should be followed. All SHOs will be allocated with a clinical Supervisor who they need to meet within one month of starting the post.

OBSTETRICS DUTIES

The rota for the FY2 are based on location and it is expected that all doctors will gain experience in a wide spectrum of clinical activity including attendance at Clinics and obstetric operating lists.

The FY2 will be expected to attend antenatal clinics and to care for the designated patients on the wards. Whilst on labour ward duty, the FY2 will be expected to be physically on the labour ward. During on-call duties, evening and weekends, the FY2 will be on-call for all obstetric patients and will attend urgent and emergency admissions on all obstetric wards including Obstetrics Day Care.

At the present time the FY2 on-call for the labour ward is expected to accompany the Registrar on ward rounds at 08.00h, 13.00h, 17.00h and 20.00h. Both the outgoing and incoming labour ward teams for the purpose of a good handover attend the 08.00h Multidisciplinary Team Meeting. Medical students from St. Bartholomew's and Royal London Hospitals attend Newham University Hospital for part of their obstetrics & Gynaecology training and the FY2 is expected to teach the medical students.

The FY2 will attend and prepare the relevant ward rounds. A daily ward round with documentation of the antenatal patients and complicated post-natal patients is required. The FY2 will perform daytime sessional duties as instructed by the consultant or clinical tutor. This may include gynaecological duties.

GYNAECOLOGY DUTIES

It is expected that in the rota, the doctor will attend gynaecology clinics and theatre sessions.

When on the gynaecology wards, the FY2 is expected to perform ward rounds with the registrar on call. He will also attend acute gynaecology emergencies when required as well as elective admissions.

The FY2 will perform daytime sessional duties as instructed by the consultant, clinical tutor or clinical director. This may include duties for the other staff away on leave and may include obstetric duties.

The FY2 is responsible for the assessment of emergency patients in the Emergency Gynaecology Assessment Unit, casualty department and Gynaecology ward and for informing the duty registrar. Please note that the Gynaecology day starts at 08.00h, operating sessions commence between 08.00 to 8.30am and day care patients are admitted at 07.00am or 12.30pm and need to be checked shortly after admission. Pre-operative ward rounds commence at 07.30h.

Medical students from the Royal London Hospital attend Newham University Hospital for part of their obstetric & Gynaecology training.

Additional duties requested by the consultant are included. Contribution to audit is required. Clinical coding on discharge of all obstetric & Gynaecology patients is required. Postgraduate teaching takes place at the Academic Centre and the SHO is expected to attend and contribute as required. There is a journal club for all SHO's including FY2 on Mondays lunchtime. **Risk management meetings are held on Tuesdays at 8.00am to 9.00am in the Lecture Theatre, Academic Centre – attendance compulsory.** CTG/caesareans sections meetings are held on Monday mornings at 0800am.

CONDITIONS-

Current Whitley agreement regarding salary, annual leave and study leave are in accordance with local guidelines.

Residence in the hospital is compulsory when on-call duty. Minimum notification of the six weeks required for study leave which must be approved by the consultant in charge of the team and clinical tutor, but availability of the leave must be checked out with the Rota Supervisor before signatures are requested.

All new staff, should introduce themselves to the senior staff, medical, nursing and midwifery as soon as possible. There is a medical protocol file on labour ward, which should be read thoroughly by all staff, permanent or locum, on arrival, this holds the current memoranda.

The speciality Tutor for the division is Ms Sanjula Sharma. Queries related to training, study leave and career advice can be directed initially to your Educational Supervisor. All FY2 should arrange to meet their Educational Supervisor regarding career matters within a month of joining the staff. All FY2 will be allocated Clinical Supervisors. Assessment by the training consultant (Educational Supervisor) is required at the beginning, middle and end of the post.

All doctors should be aware of current local recommendations regarding vaccination and are requested to have hepatitis vaccinations available via the Occupational Health Department at Newham University Hospital. All staff should be immune to rubella.
