Barts Health NHS Trust
St. Bartholomew's, Royal London, & Mile End Hospitals
Individual Placement Description

Placement	F2 Cardiology
The department	<p>The Cardiology Department of Barts Health NHS Trust provides tertiary level care for a population of >2 million people in the North East and North Central London sector plus secondary level cardiac care to the local population.</p> <p>The Trust invasive and interventional cardiology services are provided at The Barts Heart Centre (where this post is based). The Barts Heart Centre is home to the regional Heart Attack Centre which provides emergency PCI. Its other services include non-emergency coronary angiography and PCI, electrophysiology including radiofrequency ablation of arrhythmia and implantation of pacemakers, ICDs and CRT, TAVI, & non-invasive imaging including MRI and CT.</p>
The type of work to expect and learning opportunities	<p>The F2 doctor will be based on the wards at The Barts Heart Centre. He or she will be responsible for the delivery of the day-to-day care of cardiology inpatients.</p> <p>There is a high turnover of patients with a range of acute and chronic cardiac conditions including acute coronary syndromes, heart failure, valve disease, and arrhythmia. Some patients are acutely unwell and require cardiorespiratory support, for example, with CPAP and/or an intra-aortic balloon pump.</p> <p>Many cardiac patients either have pre-existing medical conditions or develop acute medical conditions such as gastrointestinal hemorrhage, pneumonia, renal failure, or stroke. This post therefore provides many learning opportunities.</p> <p>The overall educational objectives of this post include many of the generic competencies in the Foundation curriculum plus the development of competency in many of the symptom and disease-specific competencies:</p> <ul style="list-style-type: none"> • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues, including presentation skills • Understand the use of evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients • Take a history and examine a patient • Identify the acutely unwell patient • Perform an initial assessment and initiate management in the acutely unwell patient • Prescribe safely • Assess patients with chest pain, palpitation,

	<p>breathlessness, hypotension, neurological deficit.</p> <ul style="list-style-type: none"> • Perform and interpret an ECG
Where the placement is based	Barts Heart Centre
Clinical Supervisor(s) for the placement	Dr Andrew Archbold
Main duties of the placement	The F2 doctor will contribute to the provision of the day-to-day care and medical record keeping for the cardiology inpatients under the immediate supervision of ward-based SpRs. Daily consultant ward rounds are held which operate on a 'Consultant of the week' model to direct the care of inpatients. The F2 doctor rota includes night shifts. There is always a cardiology SpR on site.
Typical working pattern in this placement	<p>Variable according to shift pattern.</p> <p>Working day is 8.30-17.00</p> <p>On call include long days (8.30-9pm, nights and weekend work)</p> <p>There 5 "float" weeks to allow annual leave/study leave and pursue training objective agreed with supervisor</p>
Employer information	The employer for this post is Barts Health NHS Trust. The post will be based at The Bart Heart Centre, St. Bartholomew's Hospital, West Smithfield, London EC1A. This hospital provides secondary level cardiac care to the local population and tertiary level cardiac and cardiothoracic care to the wider population of north east and north central London.

It is important to note that this description is a typical example of your placement and may be subject to change.

Glossary of terms

Placement

A structured and supervised training opportunity within a community or hospital setting, lasting no less than four months and no more than six months.

Rotation

A combination of placements configured to deliver one year training at F1 or F2.

One year standalone rotations are offered by some schools. As an organisational unit, a programme is made up of two rotations".

Some schools may refer to 'rotations' as 'tracks'.

Foundation Programme:

A two year programme for an individual trainee/doctor made up of F1 and F2 rotations.

Some schools offer a full two year integrated programme and others which allocate to F1 and F2 as two separate processes.

Individual Placement Description

Placement	F2 General Practice
The department	Placements are provided by the London Deanery and GP placement practices vary
The type of work to expect and learning opportunities	<p>All doctors need to understand how the NHS works and the interface between primary and secondary care. Key themes in the curriculum for F2 doctors are highly appropriate to general practice</p> <ul style="list-style-type: none"> • Professionalism • Good clinical care • Recognition and management of the acutely ill patient • Discharge and planning for chronic disease management • Relationships with patients and communication skills • Patient safety within clinical governance • Infection control • Nutritional care • Health promotion, patient education and public health • Ethical and legal issues • Maintaining good medical practice • Teaching and training • Working with colleagues
Where the placement is based	London Deanery allocate practices closer to the time of starting the FY2 year
Clinical Supervisor(s) for the placement	This is provided by established GPs who are either GP trainers or supervisors approved by the London Deanery.
Main duties of the placement	Trainees are expected to undertake a clinical workload under supervision. Trainees are not expected to do 'out-of- hours' but may choose to experience this as a means of exposure to different types of acute illness and this can be arranged at the discretion of the GP clinical supervisor. Home visits are not compulsory but may provide valuable learning experience.
Typical working pattern in this placement	F2 doctors work a 10 session week (where 1 session is 4 hours). A typical working week might include 7 surgeries, F2s start with 30 min appointments for each patient reducing to 15-20 minutes and always have access to another doctor for support. Other sessions may include learning opportunities such as shadowing other health care professionals or group work with F2s from other practices. Another session may include other project work i.e. audit or directed study and a further session may include half day release for generic teaching programmes
Employer information	The employer for this post is Barts Health NHS Trust.

It is important to note that this description is a typical example of your placement and may be subject to change.
