There are also good links with UCLH, The Brompton hospital and Kings College Hospital.</p>
<p>The type of work to expect and learning opportunities</p>	<p>All F2 Doctors in paediatrics will generally be ward based (Acorn, NNU or postnatal ward) during the 'normal' working day and expected to assist with the daily medical care of all the patients on their ward irrespective of speciality.</p>

	<p>The overall educational objectives of the F2 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers.
<p>Where the placement is based</p>	<p>Whipps Cross University Hospital NHS Trust. (Acorn ward, NNU and ED)</p>
<p>Clinical Supervisor(s) for the placement</p>	<p>Are allocated by the College tutor</p>
<p>Main duties of the placement</p>	<p>The F2 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They will have opportunity to work with the consultants in outpatients clinics, and also take responsibility for problems arising in General Paediatrics or neonatal patients on the ward. They are expected to attend the structured teaching programmes provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.</p>
<p>Typical working pattern in this placement</p>	<p><i>The FY2 participate in the full shift SHO rota along with other trainees at ST1-3 level. There are a total of 16 trainees at this level.</i></p> <p><i>They will rotate between general Paediatrics, neonatal Paediatrics and community Paediatrics.</i></p> <p>9:00 Meet in NNU Seminar Room Handover between SHO on-call previous night and SHO on-call that day, Registrar and rest of Paediatric team including Consultant. This is the start of the consultant ward round.</p> <p>SHO on-call the previous night must ensure that notes, X-rays and blood results of patients admitted in the previous 24 hours</p>

	<p>are ready for the Ward round. This SHO goes off duty at 9:30.</p> <p>The ward SHO will be identified at the beginning of the week, they stay on the ward round and are "in charge" of all ward tasks for the day and week. They are supported by an FY1 working 9-5. There is usually more than one SHO and the extra person will need to help in MDU with bloods and scans as requested by the MDU Sister [Polly]</p> <p>A+E SHO will see accepted patients as they arrive. All patients must be discussed with registrar before discharge home. It is not permitted for the SHO or SpR to suggest referral to a paediatric clinic without the child having been seen by a member of the paediatric team.</p> <p>E shift SHO is to start in A+E, help ward SHO if not busy. Likewise once the ward is sorted the ward SHO is expected to help in A+E especially from 5pm onwards.</p> <p>16.30handover</p> <p>The weekly teaching program consists of: <i>Hospital Grand Round 13:00 – 14:00 every Tuesday (in MEC)</i> <i>Wednesday 13.00-14.00 (NNU seminar room)</i> <i>Thursday afternoon 13:00 – 15:00 (NNU seminar room unless Simulation (Sim suite or in situ)</i> <i>Friday 13:00 – 14:00 perinatal meeting (NNU seminar room)</i></p>
<p>Employer information</p>	<p>The employer for this post is Whipps Cross University Hospital NHS Trust.</p> <p>The post will be based at Whipps Cross Hospital, which is a medium sized acute NHS Trust and provides an extensive range of secondary services for the growing local community of approximately 450,000.</p>

It is important to note that this description is a typical example of your placement and may be subject to change.

Appendix K – Glossary of terms

Placement:

A structured and supervised training opportunity within a community or hospital setting lasting no less than four months and no more than six months.

Rotation:

A combination of placements configured to deliver one year training at F1 or F2. One year stand alone rotations are offered by some schools. As an organisational unit, a programme is made up of two rotations". Some schools may refer to 'rotations' as 'tracks'.

Foundation Programme:

A two year programme for an individual trainee/doctor made up of F1 and F2 rotations. Some schools offer a full two year integrated programme and others which allocate to F1 and F2 as two separate processes.

**Whipps Cross University Hospital
Barts Health NHS Trust
Individual Placement Description**

Placement	FY1/FY2 Acute Medicine
The Department	<p>The Department of Acute Medicine comprises 9 Consultants of whom 3 are Rheumatologists, 3 are Nephrologists, 2 are Endocrinologists and 1 has an interest in Cardiology. All of the consultants are involved in acute unselected general medical on call. The department also has a dedicated acute medicine SpR and 2 rheumatology SpRs who work with a team of 9 SHOs and 2 FY1s.</p> <p>The department serves a diverse local population of East London with a catchment of over 350,000 people from Waltham Forest, Redbridge, Epping Forest and further afield. It has close links with tertiary cardiology services at St Bartholomew's Hospital and with the Hyperacute Stroke Unit at The Royal London Hospital.</p>
The type of work to expect and learning opportunities	<p>All F1/F2 doctors are ward based and are expected to attend daily consultant led ward rounds and work within the team to deliver the daily ongoing medical care to all patients on their ward.</p> <p>Whilst on call, the F1/F2 will be involved with the generic clerking of acute unselected medical patients and will subsequently be involved with their ongoing care. They will also have to provide emergency medical ward cover.</p> <p>The overall educational objectives of the F1/F2 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers

Where the placement is based	Whipps Cross University Hospital Acute Assessment Unit (AAU)
Clinical Supervisor(s) for the placement	Acute Medical Consultants
Main duties of the placement	<p>The F1/F2 doctor is responsible with other staff for patients admitted to the acute medical wards and deal with problems arising in these patients under the close supervision of senior doctors. Daily duties include attending consultant led wards rounds and multidisciplinary board-rounds, organising investigations, maintaining accurate patient medical records and performing venous thromboembolism and delirium score assessments for all acute admissions. They will have the opportunity to learn practical procedures and to attend out-patient clinics on at least 6 occasions over 4 months in a specialty of their choice and interest. They should aim to complete an audit during their placement in acute medicine.</p> <p>They are expected to attend various teaching programmes including the weekly F1/F2 lecture based teaching, weekly clinical skills teaching where practical procedures and simulation teaching for acute medical emergencies are taught, weekly acute medicine and rheumatology departmental teaching and the hospital grand round.</p>
Typical working pattern in this placement	<p><i>Daily:</i> 0900- 1700 or 0700 - 1500 Consultant ward round/ daily duties</p> <p><i>Other:</i></p> <p>Tues: 1300-1400 Grand Round</p> <p>Weds: 1300-1400 Formal F1/F2 Teaching 1500-1600 Simulation Teaching</p> <p>Thurs: 1300-1400 Departmental Teaching</p> <p>Fri: 1215-1300 X-Ray Meeting</p> <p><i>On call requirements:</i></p> <p>Whipps Cross Hospital currently has 41 Foundation Year One (FY1) trainee doctors working in Specialist Medicine and Surgical specialities as well as one FY1 doctor assigned to Obs & Gynae speciality.</p> <p>Out of 41 FY1 doctors, 31 doctors work on on-call rotas at any one rotation of 4 months. The other ten doctors do not receive banding as they only work during standard hours - Respiratory, Stroke/Cardiology, Psychiatry, Gastroenterology, ITU Anaesthetics, Paediatrics, DMEP and 2month of Urology rotas are un-banded as FY1</p>

	<p>doctors work 40 hours per week.</p> <p>On current surgical rota, 12 FY1 doctors work 46:41 per week each. Two doctors from 16 FY1 doctors work long day shifts from 08:00 a.m. to 9:00p.m. during week days as well as weekends.</p> <p>FY2 - Intensity of their on call commitments depends on number of doctors on the on call rota. The Trust has three shift patterns of standard day from 08:00 am to 17:00, Long Day shift starts at 08:00 to 20:30 and night shift 20:30 p.m. to 08:30 a.m. across the SHO grade doctors.</p>
<p>Employer information</p>	<p>The employer for this post is Barts Health NHS Trust</p> <p>The post will be based at Whipps Cross University Hospital, which is a medium sized acute NHS Trust and provides an extensive range of secondary services for the growing local community of approximately 280,000. About 25% of the population is over 65. In the summer months the population increases by up to 100,000 visitors.</p>

It is important to note that this description is a typical example of your placement and may be subject to change.
